AQUAdesign

Depuis 1978, AQUAdesign vous propose une autre vision de la salle de bains.

Baignoire et douche ne sont plus seulement destinées à l'hygiène, elles deviennent aussi objet, sculpture, élément de décoration à part entière.

La salle de bains, chambre à coucher et dressing ne forment plus qu'une seule pièce à vivre, une pièce de bien-être qui se doit d'être accueillante et ergonomique, autant que rassurante et sensuelle.

Les produits AQUAdesign sont fabriqués en Europe dans le plus grand respect de la qualité et des traditions sanitaires, dans des Matières nobles comme le Compelight, le Cristalplant Biobased et le Polyclean.

Poussée et animée par une véritable culture d'entreprise, AQUAdesign en collaboration avec des designers connus dans le monde entier vous propose une vaste gamme de receveurs de douches ,baignoires et lave-mains qui peuvent être adaptés la demande du client avec des finitions et habillages qui en feront des objets uniques.

Sinds 1978 biedt AQUAdesign u een andere visie op de badkamer aan.

Douche en bad wordt niet meer alleen gebruikt voor de dagelijkse hygiëne, het worden objecten, decoratie-elementen, beeldhouwerken centraal in de slaap-en badkamer.

De badkamer, slaapkamer en dressing evolueren naar één leefruimte, een plaats van welbehagen die dus knus en tegelijk ergonomisch moet zijn, maar ook rustgevend en sensueel.

Het gamma van AQUAdesign wordt handgemaakt in Europa met het grootste respect voor kwaliteit en duurzaamheid en volgens sanitaire normen. Vervaardigd met hoog-kwalitatieve Materialen zoals Compelight, Cristalplant Biobased en Polyclean, staan wij garant u een topproduct aan te bieden.

Gedreven door onze bedrijfscultuur en met veel passie voor design stelt AQUAdesign in samenwerking met een team bekende topdesigners een gamma douchebakken, baden en waskommen voor.

Since 1978, AQUAdesign has been offering a different vision of the bathroom.

The shower and bath is no longer solely intended for hygiene, it has become an object, a decoration element, a sculpture, placed centrally in its own right in the room.

The bathroom, bedroom and dressing room are evolving to a unity as a single living space, a place of wellbeing that needs to be welcoming and functional as well as comforting and sensual.

AQUAdesign's products are handcrafted and manufactured in Europe with the greatest respect for quality and bathing tradition , using noble Materials such as Compelight, Cristalplant Biobased and Polyclean.

Guided by our strong corporate culture and passion for design, AQUAdesign offers ,together with a team of top designers, a wide range of products including tailored solutions and even customised to meet your wildest dreams and making each one of them a unique object.

Seit 1978 bietet AQUAdesign eine anderer Vision des Badezimmers.

Das Bad ist nicht mehr nur für die Hygiene vorgesehen, es ist ein Objekt, eine Skulptur, ein dekoratives Element an sich geworden.

Badezimmer, Schlafzimmer und Ankleideraum werden mehr als je zuvor zu einem Lebensraum vereint, der einladend wirkt, funktional, bequem und eine Oase der Ruhe darstellt.

Die Produkte von AQUAdesign werden mit großem Anspruch für Qualität in Europa angefertigt, wobei hochwertige Materialien wie Compelight, Cristalplant Biobased und Polyclean verwendet werden.

Getrieben durch eine anspruchsvolle Betriebskultur kann AQUAdesign, in Zusammenarbeit mit einem Team von Großartigen Designern, heute eine Große Kollektion an Duschwannen, Badewannen und Wäschbecken anbieten mit der Möglichkeit von Maßgeschneiderten Ausführungen die keiner Wunsch offen lassen .

ERIC CLÉMENT

Né en 1970, Eric Clément termine ses études à l'université de Louvain et obtient un Master en économie d'entreprise avant de se lancer dans sa carrière dans le monde du sanitaire chez un des plus grands fabricants en robinetterie.

Avec presque 20 ans d'expérience il décide de créer sa propre société dans le segment de design intérieur orienté plus spécifiquement vers les salles de bains.

En 2011 sa société fusionne avec Sorex, entreprise belge depuis 1981 et connue dans le monde sanitaire, située à Waterloo. En 2017 suit l'acquisition de AQUAdesign, entreprise créée dès 1978 pour un véritable visionnaire dans le monde du Wellness et du Design, Jean Pol Piron.

Aujourd'hui Les 2 sociétés sont réunies dans le AQS Group SA pour qui la recherche de trouver des solutions qualitatives et design en ce qui concerne Wellness et salles de bains est à la base des activités de chaque jour.

Eric a toujours été à l'écoute de ce que ses clients et architectes recherchent pour trouver des solutions adaptées en développant de nouvelles technologies et des niveaux de finitions. Sa passion pour l'architecture et design lui permet d'envisager des objets d'une qualité exceptionnelle combinés à un design hors norme.

Entouré par un team de designers reconnus dans le monde entier, il vous propose une gamme de produits exclusive.

Eric Clément, geboren in 1970, studeert aan de Universiteit van Leuven en behaalt een Master in Business Economics alvorens zijn carrière in de sanitaire wereld in 1993 te starten bij een van de marktleiders op gebied van badkamerkanalen.

Met bijna 20 jaar ervaring in sales en business development kiest hij ervoor zijn eigen bedrijf op te starten met focus op Interior design in de badkamer.

In 2011 fuseert hij zijn bedrijf met Sorex, Belgisch sanitair bedrijf opgericht in 1981 en gevestigd in Waterloo. In 2017 volgt de overname van AQUAdesign. Bedrijf initieel opgericht in 1978 door Jean Pol Piron, visionair op gebied van Wellness en design baden.

Dit resulteert heden in de AQS groep (AQUAdesign Sorex Group) n.v waar de continue zoektocht naar hoogkwalitatieve design oplossingen voor badkamers een dagelijkse onderdeel van de werkzaamheden is.

Eric heeft steeds een luisterend oor naar de noden van de markt om hier de nodige oplossingen te bieden alsook steeds verder te vernieuwen. Zijn passie voor architectuur, Interior design en technologie draagt ertoe bij de grenzen steeds verlegd worden en een assortiment met unieke modellen kan worden gepresenteerd.

Een team van designers staat hem bij om de mooiste afgewerkingen mogelijk te maken.

Born in 1970, Eric Clément studies economics to obtain a Master in Business Economics at the University of Leuven before starting his career in the sanitary world in 1993 with one of the leading faucet manufacturers in the sector.

With nearly two decades of experience in international sales and business development, he chooses to create his own company in the beloved Interior design segment focused on the bathroom.

In 2011 merges his company with Sorex, a belgian sanitary company which was founded in 1981 and is based in Waterloo Belgium. In 2017 AQUAdesign is acquired, the company founded by Jean Pol Piron, the visionary creator of the wellness and design bathtubs since 1978.

This results in the AQS Group (Aquadesign Sorex Group) s.a. where the quest for qualitative and design solutions for the bathroom and wellness area is the main focus.

Eric has always been listening closely to what the customers and architects are looking for, what the solutions could be whilst also inventing and developing new applications of new technologies. His love of architecture, design and technology guarantees the most beautiful yet qualitative products. A team of designers is working in close relationship with Eric to create the most exclusive lines and think about the finishes, Materials and Colours.

Eric Clément, geboren 1970, beendet sein Studium als Master in Betriebswirtschaft an der Universität von Leuven, bevor seine Karriere 1993 bei einem der führenden Unternehmen in der Sanitärv Welt beginnt.

Mit fast 20 Jahren Erfahrung in Verkauf und Geschäftsentwicklung startet er seinen eigenen Betrieb mit Fokus auf Innenarchitektur und die Gestaltung des Badezimmers.

2011 fusioniert sein Unternehmen mit Sorex, einem Belgischen Sanitär-Unternehmen mit Hauptsitz in Waterloo. 2017 erfolgt dann die Übernahme von AQUAdesign, ein bereits 1978 von Jean-Pierre Piron gegründetes Unternehmen, einem visionär in Sachen Wellness und Bäderdesign.

Heute haben sich beide Betriebe zur AQS Gruppe (AQUAdesign Sorex Group) zusammengeschlossen, bei der die stetige Entwicklung von hochwertigen Designbädern im Vordergrund steht.

Eric hat stets ein Ohr für die Wünsche und Anmerkungen seiner Kunden und Architekten; dort, wo die Suche nach Lösungen und Entwicklungen sein Hauptziel sind. Seine Leidenschaft für Architektur, Innenarchitektur und Technologie trägt dazu bei dass Grenzen immer weiter verschoben werden und ein Angebot von einzigartigen Modellen heute unsere Kunden präsentiert werden kann.

Ein Team von anerkannten Designern steht dazu an seiner Seite.

ENVIRONMENT

CRISTALPLANT® Biobased

Cristalplant® Biobased est un Matériau composite composé à 75% de minéraux avec du trioxyde d'aluminium lié avec un pourcentage de résines.

Entretien. L'entretien de Cristalplant® est à la fois facile et rapide. Pour enlever la majorité de taches et de la saleté qui se sont déposées sur la surface , il suffit d'utiliser de l'eau savonneuse.

Pour les dommages superficiels la surface peut être réparée en utilisant une éponge abrasive Scotch Brite™

Pour des dégâts plus importants il est possible de sabler légèrement la surface.

ColourTOUCH Entretien. Surface en Cristalplant® il suffit de nettoyer l'intérieur du bain ou du lavabo avec de l'eau savonneuse.

COMPOLIGHT

Compolight est un alliage spécifique de minéraux et de poudre de marbre combiné avec des résines polyester thermo durci. Le processus de production de compolight sous-vide a été approuvé et certifié.

Entretien. L'entretien de Compolight peut être effectué avec une simple éponge et un produit de nettoyage non abrasif. Les griffes peuvent être enlevées en utilisant en utilisant du papier abrasif grain 1200. Des éclats peuvent également être facilement réparés.

ACRYL

A sanitary acrylic sheet (polymethyl methacrylate) is a plate of a few millimeters thick, which also determines its quality, strengthened with resin and fiberglass. Acrylic is a robust and timeless Material, colored in the mass and light-weight. Its touch is soft and pleasant thanks to a very good preservation of temperature.

Entretien. Entretien facile avec une eau savonneuse ou un détergent non-abrasif, rincer avec de l'eau.

POLYCLEAN

Polyclean est un Matériau 100% recyclable . Ce Matériau est flexible, économique, innovant et particulièrement adapté pour l'usage dans des salles d'eau.

Entretien. Nettoyage avec un produit d'entretien régulier et une éponge non abrasif. Rincer à l'eau afin d'éviter des traces.

CRISTALPLANT® Biobased

Bevat 50% mineralen en 50% polyester bio-resins. het is het allereerste eco en duurzame solid surface Materiaal waarbij plantaardige stoffen en natuurlijke inerte mineralen van extreme puurheid worden gecombineerd.

Onderhoud. Onderhoud van Cristalplant® is zowel makkelijk als snel. het is voldoende om het Materiaal te reinigen met zeepsop of huishoudelijke detergентen om het merendeel van de vlekken of vuil te verwijderen die zich op de oppervlakte vastzetten.

ColourTOUCH Onderhoud. Oppervlakte in Cristalplant® : het volstaat om de binnenzijde van het bad of wasbekken te reinigen met zeepsop om de meeste vlekken of gebruikssporen van het oppervlak te verwijderen .

Reinigen met een zachte spons of doek. Na afloop van het reinigen dient er met voldoende water te worden nagespoeld om kringvorming te vermijden. Exterieur in Colourtouch : gebruik huishoudelijke spray en reinig met een zachte spons of doek om op te wrijven. Nooit een schuurspons of schuurmiddel gebruiken om de buitenzijde te reinigen.

COMPOLIGHT

Compolight is specifiek samengesteld en wordt gevuld met geselecteerde quartsen en marmersoorten alsook glas versteviging Materialen en polyesterharsen .het compolight productieprocess is gecertificeerd en vindt plaats door middel van vacuüm.

Onderhoud. Reinigen gebeurd door middel van een spons en een zacht reinigingsmiddel.

Oppervlakkige krassen kunnen door middel van een " 1200 " type schuurpapier worden weggewerkt. Grottere beschadigingen kunnen worden gerepareerd.

ACRYL

Een blad Acryl is beschikbaar in verschillende diktes, hetwelk tevens ook zijn kwaliteit bepaald , wordt versterkt door hars alsook door glasvezel .Acryl staat bekend als een zeer robuust,duurzaam en tijdloos Materiaal , gekleurd in de massa. Aangenaam bij aanraking en met uitstekende thermische eigenschappen die de watertemperatuur behouden.

Onderhoud. Envoudig in onderhoud door middel van een zeepsopje met huishoudreiniger. Naspoelen met zuiver water .

POLYCLEAN

Polyclean is een 100% gerecycleerd Materiaal. Het Materiaal is flexibel , economisch ,innovatief en uitermate geschikt voor gebruik in de badkamer.het Materiaal is makkelijk in onderhoud omwille van zijn nieuwe samenstelling. Deze samenstelling maakt dat vuil en andere residuen die tot vlekken leiden zich niet kunnen vastzetten op het oppervlak.

Onderhoud. Makkelijk te reinigen met een zeepsopje of een huishoudelijk, niet schurend reinigingsmiddel.afspoelen met zuiver water.

CRISTALPLANT® Biobased

Consists of 50% minerals and 50% polyester bio-resin. It is the very first eco-sustainable solid surface made from Materials of plant origin combined with natural inert minerals of absolute purity. It is a Fully eco-sustainable product.

Maintenance. Caring for Cristalplant® is both fast and easy. It is enough to clean with soapy water or household detergents in order to remove the majority of stains and dirt which are deposited on the surface.

ColourTOUCH Maintenance. Surface in Cristalplant : it is sufficient to clean the inside of the bath or washbasin with soapy water to remove the most common stains or traces of use on the surface.

Clean with a soft sponge or cloth. After cleaning rinse the bath or basin with sufficient water to prevent circles. Exterior in Colourtouch : use a normal cleaning spray and clean with soft sponge or cotton cloth. Never use a scouring pad or abrasive cleaner.

COMPOLIGHT

Compolight is specifically made of allied mineral loads on marble powder combined with thermo hardened polyester resins. The compolight's production process has been approved and it involves creation under vacuum.

Maintenance. Maintenance can be achieved with a simple sponge and a non abrasive cleaning product.

Scratches can be removed using a "1200" type of abrasive paper. The bathtub can then be repaired, chips can also be easily repaired.

ACRYLIC

A sanitary acrylic sheet (polymethyl methacrylate) is a plate of a few millimeters thick, which also determines its quality, strengthened with resin and fiberglass. Acrylic is a robust and timeless Material, colored in the mass and light-weight. Its touch is soft and pleasant thanks to a very good preservation of temperature.

Maintenance. Easy cleaning with soapy water or a soft, non-abrasive detergent is sufficient. Rinse with water.

POLYCLEAN

Polyclean is a 100% recyclable Material. This Material is flexible, economical, innovative and particularly suitable for use in the bathroom. Our new Material Polyclean is the replacement for Plasticryl and is very easy to maintain due to its new composition. This new composition makes it insensitive to dirt, grease and other influences that can make stains.

Maintenance. Easy cleaning with soapy water or conventional,non-abrasive cleaning agents,then rinse with water.

CRISTALPLANT® Biobased

Besteht aus 50% Mineralien und 50% Polyester Bio-Harzen. Es ist den allerersten umweltfreundlichen festen OberflächenMaterial, wobei der Grundstoff pflanzlichen Ursprungs und natürliche Materialien kombiniert werden.

Pflege. Pflege der Cristalplant® ist sowohl einfach als schnell. Es reicht aus die Oberfläche mit Seifenwasser oder ein herkömmliches reinigungsmittel zu reinigen um alltägliche Flecken und gebrauchsspuren die sich auf die Oberfläche befinden zu entfernen.

ColourTOUCH Pflege.

Oberfläche in Cristalplant. Innenseite reinigen mit einem Schwamm und Seifenwasser. Außenseite mit herkömmlichen reinigungsspray und sanftes Tuch abwischen. Niemals einen scheuerschwamm benutzen.

COMPOLIGHT

Compolight ist eine synthetische Komposition Material welches bis zu 80% aus Mineralien besteht, die mit Polyester Harz (Polymer) vermischt und dann unter Hitze gehärtet werden. Der Produktionsprozess wird im Vakuum vollzogen und wurde patentiert. Das Ergebnis ein 100% starres Träger-Material (ohne Ausdehnung, Porenfrei und schwingungsfrei). Die Wanne gibt fast keine Vibrationen ab durch Gebrauch oder Füllung.

Pflege. Reinigen mit einem Schwamm und herkömmliches Reinigungsmittel. Kratzer können mit ein type "1200" schleifpapier entfernt werden.

ACRYLIC

Acryl ist ein Material, das in der chemischen Industrie entwickelt wurde unter dem Namen PMMA (Polymethyl methacrylate). In der ganzen Sanitärbranche bekannt ist es als ein leichtes Material, produziert durch Hitze Formung (unter Vakuum) und dann auch mit Fiberglas verstärkt. Buzz und Evolution sind Acryl-Produkte.

PolyClean

Plasticlean ® PE (Polyethylen) ist ein neuartiges und 100% wieder zu verwenden Material, welches aus der Welt der modernen Designer übernommen wurde. DIP ECO ist zum Beispiel ein Recycling-Produkt aus alten und/oder defekten « PE » Wannen.

Pflege. Reinigung mit Seifenwasser, reichlich mit klarem Wasser nachspülen

TADELAKT

Instructions d'entretien - Tadelakt

Fréquence : 1 fois par semaine

Il est utile de savoir que le Tadelakt est un produit naturel qui demande à être nourri et entretenu régulièrement.

A l'aide d'une éponge veiller à bien appliquer le savon naturel sur toute la surface intérieure et extérieure de votre baignoire. Ensuite à l'aide d'un chiffon doux afin de ne pas griffer la baignoire (éviter les chiffons en microfibre) essuyer la surface traitée par le mélange savonneux afin d'obtenir une surface homogène et nourrie.

Attention !

L'usage de produits autres que ceux livrés avec la baignoire peut générer des dégâts ou niveau finition, auquel cas nous déclinons toute responsabilité.

BIOBASED

Cristalplant® Biobased

Cristalplant® Biobased est un Matériau composite composé à 75% de minéraux avec du trioxyde d'aluminium lié avec un pourcentage de résines. C'est un produit durable dans lequel 30% des résines d'origine fossile ont été remplacés par des résines à base de plantes. 50% de la composition est un dérivé d'hydrate d'aluminium, ce qui est un produit de récupération du processus de production de bauxite pour l'extraction d'aluminium. Tout à fait recyclable et réutilisé à la fin de son cycle de vie. Beaucoup plus léger et donc plus faible en CO₂ que d'autres produits sur le marché. C'est un produit facile à manipuler et à installer. Certifié en Classe 1 résistant au feu.

PROPERTIES AND INSTRUCTIONS

RESISTANCE CHIMIQUE

La surface a été testée pendant un test de contact de 16h avec des taches et substances agressives.

La plupart des résidus peuvent être enlevés au nettoyage simple. Toutefois une restauration de la surface peut être nécessaire dans certains cas.

NETTOYAGE

Éponge et détergent, dans le cas des taches persistantes, éponge abrasive (scotch brite) et crème de polissage.

Rinçage à l'eau clair en abondance.

Attention : l'usage de produits cosmétiques (teintures, ...) peut provoquer des taches.

CHEMISCHE RESISTENTIE

Het oppervlak werd gedurende 16 u door middel van een contact test met vuil en agressieve substanties getest.

Het merendeel van de substanties kan eenvoudig worden verwijderd, het kan echter nodig zijn om de oppervlakte dieper te reinigen.

REINIGING

Spons en reinigingsmiddel, in geval van hardnekkige vlekken, een schuurspons en schuurcrème/poliermiddel gebruiken.

Overvloedig naspoelen met zuiver water om alle resten te verwijderen.

Opgelot : het gebruik van haarverf ed kan onherstelbare vlekken veroorzaken.

CHEMICAL RESISTANCE

The surface has been tested with a 16-hour contact test with staining agents and aggressive substances.

Most smudges can be easily removed, in some cases specific restoring/repair may be required.

CLEANING

Wipe with a sponge and normal bathroom detergent or an abrasive sponge (scotch brite) and scouring cream.

Rinse with clear water.

Attention : the use of hair dye products can provoke stains.

CHEMISCHE EIGENSCHAFTEN

Die Oberfläche wurde eines 16 Stunden andauernde Tests mit Schmutz und aggressiven Substanzen beansprucht.

Der Größte Teil lässt sich mit herkömmliche Reinigungsmittel entfernen, eine Tiefenpflege kann aber notwendig sein um alle schmutz zu entfernen.

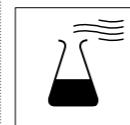

REINIGUNG

Ein Schwamm und haushaltsübliches Reinigungsmittel, wenn nötig einen Scheuerschwamm mit Scheuermilch, sind ausreichen.

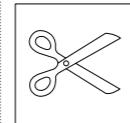

Mit reichlich klarem Wasser nachspülen.

Achtung : die Verwendung von Haarfärbemitteln kann dazu führen dass schwer entfernbare Flecken entstehen!
