PORTFOLIO

Design. Qualidade. Oferta integrada para banho. Estas são as palavras que definem a Water Evolution, a marca portuguesa nascida em 2005 no seio de um Grupo com mais de 70 anos de experiência no sector da construção, o Grupo Azevedos. E destaca-se hoje nos materiais de construção e decoração graças à dedicação e ao relacionamento que criou e que mantém com arquitetos, designers de interiores, promotores imobiliários e hoteleiros.

A Water Evolution quer continuar assim. A dar sempre mais.

Uma equipa de mais de 50 profissionais qualificados, está na Water Evolution a trabalhar para dar o melhor aos clientes, que podem contar com uma oferta integrada de produtos para banho: torneiras, acessórios, ferragens, banheiras, bases de duche, resguardos, móveis e sistemas de instalação. Só produtos de design. Sem exceção.

HISTORY TÓRIA

Design. Quality. Integrated offer for bath. These are the words which define Water Evolution, the Portuguese brand created in 2005 within a Group with more than 70 years of experience in the construction industry - Grupo Azevedos. And today it stands out in the construction and decoration materials, thanks to the dedication and relationship that it has created and maintains with architects, interior designers, real estate developers and hotel promoters.

Water Evolution intends to keep that going. Always going the extra mile.

A team with more than 50 qualified professionals works at Water Evolution to provide the best for their clients, who can count on an integrated offer of bath products: taps, accessories, hardware, bathtubs, shower trays, shower screens, bathroom furniture and installation systems. Only design products. With no exception.

Água. O elemento que faz a Water Evolution criar e recriar objetos. A forma e funcionalidade são inspiradas na leveza e pureza da água. As linhas simples e depuradas dos produtos Water Evolution reinventam o bem estar e a comodidade do banho.

Grandes autores criam grandes obras. E por isso a Water Evolution associou-se a grandes nomes da arquitetura internacional como é o caso de Eduardo Souto de Moura, Prémio Pritzker 2011, Francisco Mangado, João Álvaro Rocha e Nuno Brandão Costa.

Porque o conforto e a comodidade devem ser belos, na Water Evolution há um departamento que cumpre diariamente a missão da marca: top design ao serviço do cliente.

DESIGN

Water. The element that makes Water Evolution create and recreate objects. The lightness and purity of the water serve as an inspiration for the shape and functionality. The simple and pure lines of Water Evolution products reinvent the welfare and comfort of the bath.

Great authors create great works. That's why Water Evolution has partnered with great names in the international architecture, such as Eduardo Souto de Moura, 2011 Pritzker Prize winner, Francisco Mangado, João Álvaro Rocha and Nuno Brandão Costa.

Because comfort and convenience are meant to be beautiful, Water Evolution has a department to meet the brand's mission on a daily basis: top design at the customer's service.

Nasce no Porto, Portugal, em 1952.

Licencia-se em Arquitetura pela Escola Superior de Belas-Artes do Porto, em 1980.

Colabora com o Arquiteto Siza Vieira, entre 1974 e 1979. Professor assistente do curso de Arquitetura da FAUP, de 1981 a 1991.

Professor convidado em Paris-Belleville, Harvard, Dublin, Zurich e Lausanne.

Recebeu vários prémios, entre os quais o prémio Pessoa (1998), dois prémios Secil (1992 e 2004), o Heinrich-Tess-Now Medal in Gold, os prémios FAD Arquitetura e Opinião pelo Estádio Municipal de Braga, o FAD Urbanismo pelo Metro do Porto e a medalha de Ouro IAKS (Alemanha). Galardoado com o prémio PRITZKER 2011.

Nasce em Navarra, Espanha, em 1957.

Arquiteto pela Faculdade de Arquitetura da Universidade de Navarra, onde desenvolve o seu trabalho como professor. Foi Professor Visitante na Graduate School of Design da Universidade Harvard. Foi também Professor Visitante de Arquitetura Eero Saarinen na Faculdade de Arquitetura da Universidade de Yale.

Recebeu o Prémio de Arquitetura de Andrea Palladio, o Thiene de Arquitetura, o Prémio Architecti, o Prémio da CEOE, o FAD, Prémio Nacional de Arquitetura Espanhola, entre outros.

Born in Porto, Portugal, in 1952.

Graduates in Architecture from the Oporto University School of Fine Arts in 1980.

Collaborates with the Architect Siza Vieira, between 1974 and 1979. Assistant Professor of the Course of Architecture at FAUP (Faculty of Architecture of the University of Porto), from 1981 to 1991.

Visiting Professor at Paris-Belleville, Harvard, Dublin, Zurich and Lausanne.

He received several awards, including the Pessoa Prize (1998), two Secil Awards (1992 and 2004), the Heinrich-Tess-Now Medal in Gold, the FAD Prize for Architecture and Opinion for the Braga Municipal Stadium, the FAD Urbanism Award for the Subway of Porto and the Gold Medal IAKS (Germany). Awarded with the PRITZKER award 2011.

Nasce em Viana do Castelo, Portugal, em 1959.

Licenciado em Arquitetura pela Escola Superior de Belas Artes do Porto em 1986.

Inicia a sua atividade profissional em 1982.

De 1990 até 2001, foi professor na Faculdade de Arquitetura da Universidade do Porto e Professor Convidado em Clermont-Ferrand, Nancy, Madrid, Barcelona, Pamplona, Granada, Roma, Palermo e Nova Iorque.

Recebeu vários prémios, entre os quais o Prémio Nacional de Arquitetura (1993), o AIA CE DESIGN AWARD (2001), o Prémio Vale da Gândara Arquitetura (2004–05), e o Prémio da Ordem dos Arquitetos de Portugal (2005), tendo sido finalista dos Prémios Iberfad / Alejandro de La Sota (1996, 2000, 2002) e do Prémio Mies van der Rohe (1999).

Licenciado pela Faculdade de Arquitetura da Universidade do Porto em 1994, onde leciona desde 1999. É também Professor Convidado da “Escuela Técnica Superior de Arquitectura” da Universidade de Navarra.

Em 1998, abre escritório no Porto, após ter ganho vários concursos nacionais e internacionais.

Em 2004 ganha o Prémio Revelação e Mérito “Jornal Expresso / SIC – 12 Anos”. Foi nomeado para o Prémio Mies Van der Rohe 2008 e venceu o Prémio Secil 2008.

Studio P é o departamento de design e desenvolvimento de produto da Water Evolution e nasceu em 2005.

As ideias do Studio P nascem a partir de muitos anos do conhecimento profundo das necessidades dos arquitetos, promotores imobiliários e hoteleiros e clientes finais, que lhe permitem identificar oportunidades de criação e desenvolvimento de produto.

Os produtos da Studio P caracterizam-se por serem inovadores, racionais, funcionais e de top design. Nos últimos cinco anos, foram desenvolvidas linhas de torneiras, acessórios, ferragens, banheiras, bases de duche, resguardos, móveis e sistemas de instalação.

Born in Navarra, Spain, in 1957.

Architect by the School of Architecture at the University of Navarra, where he develops his work as a teacher.

He was Visiting Professor of the Graduate School of Design at Harvard University. He was also Visiting Professor of Architecture Eero Saarinen in the Faculty of Architecture at Yale University. Received the Andrea Palladio Prize for Architecture, the Thiene of Architecture, the Architecti Prize, the Prize of the CEOE, the FAD and the Spanish National Architecture Award, among others

Born in Viana do Castelo, Portugal, in 1959.

Graduates in Architecture from the Oporto University School of Fine Arts in 1986.

Begins his work in 1982. From 1990 until 2001, he was professor at the Faculty of Architecture of the University of Porto and Visiting Professor in Clermont-Ferrand, Nancy, Madrid, Barcelona, Pamplona, Granada, Rome, Palermo and New York.

He received several awards, including the National Architecture Award (1993), the AIA CE DESIGN AWARD (2001), the Vale da Gândara Architecture Prize (2004–05) and the Portuguese Association of Architects Award (2005), and was a finalist of the Awards IBERFAD / Alejandro de La Sota (1996, 2000, 2002) and of the Mies van der Rohe Award (1999).

Graduated by the Faculty of Architecture of the University of Porto in 1994, where he teaches since 1999. He's also Visiting Professor of the "Escuela Técnica Superior de Arquitectura" of the University of Navarra.

In 1998, opens office in Porto, having won several national and international competitions.

In 2004 wins the Revelation and Merit Award "Jornal Expresso / SIC – 12 Anos".

He was nominated for the Mies Van der Rohe Award in 2008 and won the Secil Award in 2008.

Studio P is Water Evolution's design and product development department and was created in 2005.

Studio P's ideas were born from many years of deep knowledge of the needs of architects, property developers, hoteliers and end customers, allowing it to identify opportunities for product creation and development.

Studio P's products are characterized by being innovative, rational, functional and of top design. In the last five years, lines of taps, accessories, hardware, bathtubs, shower trays, shower screens, bathroom furniture and installation systems have been developed.

Do país de poetas e de arquitetos é a Water Evolution. Uma marca portuguesa criada e fabricada neste país europeu que apresenta 7 linhas de torneiras, 10 linhas de acessórios, 4 linhas de ferragens, 3 linhas de móveis, 4 linhas de banheiras e bases de duche, 3 linhas de resguardos e 1 linha de instalações sanitárias. São 32 linhas e 1.100 referências. Com mais de 1.000.000 de produtos instalados em todo mundo. É obra.

MADE IN PORTUGAL

Water Evolution comes from the country of poets and architects. A Portuguese brand created and manufactured in this European country that presents 7 lines of taps, 10 lines of accessories, 4 lines of hardware, 3 lines of bath furniture, 4 lines of bathtubs and shower trays, 3 lines of shower screens and 1 line of installation systems. We're talking about 32 lines and 1.100 references. With more than 1.000.000 products installed all over the world. Now that is something.

N
GAL

ENGE

A beleza também tem a sua técnica. O produto tem que ser pensado para ser funcional e de qualidade, mas também diferente. Os produtos Water Evolution são assim. Pensar e produzir torneiras com formas leves e reduzidas, parece fácil. E é. Para a Water Evolution.

Beauty also requires technique. The product has to be designed for functionality and quality, but it must also be different. The Water Evolution products are designed that way. To design and produce taps with light and reduced shapes seems easy. And indeed it is. For Water Evolution.

MARIA ENGINEERING

A Water Evolution controla a qualidade. Sem exceção. E é por isso que desde a matéria-prima à entrega do produto final toda a cadeia de valor é sujeita a rigorosas inspeções e testes de qualidade, tudo regulado segundo as melhores práticas e normas internacionais. Na Water Evolution dá-se sempre o melhor. Todos os dias.

controle qualidade

Water Evolution controls quality. With no exception. That's why from the raw material to the delivery of the final product, the entire value chain is subject to strict inspections and quality tests, all of them regulated in accordance with the best practices and international standards. Water Evolution always goes the extra mile. Every single day.

WATER EVOLUTION QUALITY CONTROL

A Water Evolution vive a água. Muito. Para a preservar, projeta torneiras equipadas com redutores de caudal, o que proporciona uma economia de cerca de 50% de água em relação às torneiras convencionais.

E equipa os monocomandos de lavatório, bidé e cozinha com cartuchos progressivos de última geração, e os de banheira e duche com reguladores de caudal independentes dos de temperatura. Tudo garantindo a poupança de energia pela não abertura de água quente na primeira fase de rotação do manípulo. Tudo sem perder o conforto de utilização.
Água. Evolução. Ecologia.

The word "ECOL" is written in a large, bold, sans-serif font. The letters are a light green color and have a subtle horizontal striped texture. The letters are slightly overlapping each other, with "E" on the left, "COL" in the center, and a smaller "I" on the right.

OGA

ECOLOGY

Water Evolution lives water. A lot. To preserve it, Water Evolution designs taps equipped with a flow controller which allows a saving of around 50% of water in relation to the conventional taps.

Water Evolution also equips the washbasin, bidet and kitchen faucets with the latest progressive cartridges. As for the faucets of bathtub and shower, they are equipped with flow controllers which are independent from the temperature ones. All of this to ensure an energy saving, by not opening the hot water on the first stage of handle rotation. And still maintaining a comfortable usage.
Water. Evolution. Ecology.

SHOW ARMA

Está no ADN da Water Evolution dar as melhores condições de trabalho aos seus clientes. Gosta de o fazer de forma confortável, mas cheia de estilo. Por isso, foi projetado pelo arquiteto João Álvaro Rocha um showroom com 800 m². É de coração cheio e braços abertos que a Water Evolution recebe todos os que a visitam. A 3 km do aeroporto Francisco Sá Carneiro, no Porto.

A 2 km do showroom o departamento de logística, com 1.200 m² de área coberta, assegura o controlo, armazenamento e entrega dos materiais. Em perfeitas condições. Só assim o entrega. Porque só assim o sabe.

To give the best working conditions to their clients is in Water Evolution's DNA. Water Evolution likes to do it with comfort, but also with added style. That is why the architect João Álvaro Rocha has designed a showroom with 800 m². Water Evolution warmly welcomes all visitors. 3 km away from Aeroporto Francisco Sá Carneiro, in Oporto.

2 km away from the showroom, the logistics department, with 1.200 m² of covered area, ensures the control, storage and delivery of the materials. In perfect conditions. There is no other way. Because that's the only way Water Evolution knows.

ROOM E ZÉM **SHOWROOM AND WAREHOUSE**

PRESENCE INTERNACIONAL

Em 2010 a Water Evolution decide entrar no mundo. Apresenta as suas linhas na feira italiana CERSAIE – Salone Internazionale della Ceramica per l'Architettura e dell'Arredobagno, com stand desenhado pelo arquiteto Eduardo Souto de Moura.

Em 2014 está no mundo. Tem mais de 200 clientes em vários mercados como África do Sul, Alemanha, Angola, Bélgica, Brasil, Canada, Chipre, Coreia do Sul, Emirados Árabes Unidos, Eslováquia, Espanha, EUA, França, Holanda, Itália, Kuwait, Líbano, México, Moçambique, Polónia, República Checa, Reino Unido, Suíça e Ucrânia. O mundo é muito grande, mas a Water Evolution quer lá chegar.

INTERNATIONAL PRESENCE

CA 5 ACIONAL

In 2010, Water Evolution decides to present itself to the world. Its lines are presented in the Italian fair CERSAIE – Salone Internazionale della Ceramica per l'Architettura e dell'Arredobagno, with a stand designed by the architect Eduardo Souto de Moura.

In 2014 it is all over the world. It has more than 200 clients on several markets, such as South Africa, Germany, Angola, Belgium, Brazil, Canada, Cyprus, South Korea, United Arab Emirates, Slovakia, Spain, EUA, France, the Netherlands, Italy, Kuwait, Lebanon, Mozambique, Poland, Czech Republic, United Kingdom, Switzerland and Ukraine. The world is a big place, but Water Evolution wants to get there.
